

To Whom It May Concern,

The purpose of this letter is to provide you with information on my professional background and a summary of my skills, as I am interested in joining your company and wish to be considered for participation in the recruitment process.

I have enclosed my resume for your further information and consideration.

As well as a great problem-solving capacity, I have a positive and moderate attitude towards my work.

I am accustomed to working as a team, and I consider myself a dynamic and coherent person with initiative and organizational skills.

If my profile meets your needs, I would like you to take into consideration my application for a position in your company, and I would appreciate the opportunity to speak with you in person to discuss my potential contributions to your company.

I am looking forward to hearing from you soon.

Yours sincerely,

Diego Pazos

<http://www.wearesuburb.com>

After finish my work on GrupoVips, I have studied English to improve it during 4 months until my fist work in a London based company.

- **GrupoVips (Freelance)** (01/01/2013 ~ 01/09/2013, London)
Functions: Partial programming and enhancement of the website functionality for GrupoVips workers. Among others, the features I developed are the administration of employee tax data, connections between the employee and HR, etc.

Tools and programming languages: **PHP OO, CSS, XHTML, Drupal CMS, Ajax, SublimeText 2, Notepad++, Netbeans, MySQL, XML, JavaScript.**

- **GrupoVips:** (01/06/2012 ~ 01/12/2012, Madrid)

Functions: Partial programming and maintenance of the 16 websites that form the group of enterprises called GrupoVips. Some of these enterprises are **Starbucks Spain, TGI Friday's** and **Gino's.**

To see the full list of the enterprises, you can access here:
<http://www.grupovips.com/en/content/our-brands>

For the programming, I used **Notepad++** as the main tool together with **SublimeText2**. The programming was carried out with **PHP OO, MySQL, CSS2, Javascript, Ajax, XHTML/HTML5**, as well as with **Drupal CMS**.

- **EVIGURUMIS (Freelance)** (01/11/2011 ~ 01/05/2012, Madrid)

Functions: Design and programming of the website and the online store.

Tools: **Notepad++** and **NetBeans** (for the programming), **Photoshop** and **fireworks** (for design and retouch of images).

Programming languages: **PHP OO, MySQL, XHTML, XML, CSS2, JavaScript, Ajax** and for the online store **PrestaShop** as **CMS**.

- **Persei Consulting**: (01/08/2011 ~ 01/10/2011, Madrid)

Functions: MAMP Web developer.

I was in charge of web development in **Linux** and **Mac OSX** environments. The main tools I employed were **NetBeans** and **Komodo Edit**. For the programming, I used **POO PHP5, MySQL, XHTML, CSS2, Ajax, JavaScript, Apache Server** and **IIS7**. I worked with pure source code as well as the implementation of **CMSs** such as **WordPress** and the configuration and creation/modification of plugins to meet customers' needs.

For confidentiality reasons it is not possible to show any source code. We worked with international organizations together with the US and Latin America, always in the field of eHealth. It is also worth mentioning the use of **Git** repository system. I am accustomed to working in teams with a group of developers from all over the world.

- **INDRA-BBVA**: (01/11/2010 ~ 01/07/2011, Madrid)

Functions: Programmer analyst (Logical Security Department).

I was in charge of the intranet of the **BBVA** in *Tres Cantos* (Madrid), maintaining and automating processes such as administration of users and encrypted security certificates. For the associated tasks, I used the **Putty Manager** as the main tool together with the **Notepad++**. As the principal language, I used **PHP OO** as well as **XHTML, CSS2, Javascript, JQuery** and **Perl**, putting them together in the use of the **Framework CodeIgniter**. I also installed and configured a **SVN** system on **Ubuntu Server**.

- **SectorGames** (01/01/2009 ~ 01/01/2011, Oviedo & Madrid)

The company before called Aragor-Team.

Functions: Responsible for programming and maintenance of the online game community as well as the websites that form it.

Tools: **Notepad++** (notepad-style code editor), **photoshop** and **fireworks** (retouch of images and modification of designs).

Programming languages: **PHP OO, MySQL, XHTML, XML, CSS2, W3C validation, JavaScript**, and **Ajax**.

- **ARAGOR-TEAM** (01/01/2004 ~ 01/01/2009, Oviedo & Madrid)

Community of online game servers and MMORPG servers.

Functions: Responsible for programming and maintenance of the online game community as well as the websites that form it.

Tools: **Notepad++** (notepad-style code editor), **photoshop** and **fireworks** (retouch of images and modification of designs).

Programming languages: **PHP OO**, **MySQL**, **XHTML**, **XML**, **CSS2**, **W3C validation**, **JavaScript**, and **Ajax**.

- **Grupo Élite (37grados)**: (01/07/2007 ~ 01/12/2007, Oviedo)

Functions: Web programmer.

For the programming of the web pages I used **PHP OO** as the principal language, along with **XHTML**, **CSS2**, **W3C validation**, **Javascript**, using **Apache as the web server** and **MySQL as the database server**. The tools for its development I employed were: **Dreamweaver** for the programming; and **Photoshop** for the layout.

It is worth mentioning that, throughout my career, I worked on providing technical support for web development as a PHP programmer in creating the **CMS mkportal**, improving my **problem-solving capacity**, my dealings with the users/customers and my **PHP OO** management.

I have worked with several **CMSs**, among which are included **mkportal**, **PhpNuke**, **ExtremePortal**, **WordPress**, **PrestaShop**, and more sporadically with **Joomla**, **Mambo**, **Drupal** and **e107**.

I have also worked with forums, primarily with **SMF**, **PhpBB**, **vBulletin** and **AEF**.

QUALIFICATION

- **Technical Expert in Maintenance and Management of IT system**. I.E.S. Monte Naranco (Oviedo), June 2007.

OTHER POINTS OF INTEREST

- Available for immediate incorporation.
- Technical English for management of programmes and/or required manuals. Level **C1** according to *infojobs*. This level is described as follows:
You are capable of understanding long and complex texts. You can express yourself fluently and spontaneously, without having to look for the adequate expressions in a very evident way. You can use the language flexibly and effectively for professional or academic purpose.
